You will be given an extra room key for the external participant you are hosting, which will let that person open the entrance and your room's door. You will be given this key beforehand, and you have the responsibility to give it to the external and to get it back at the end of the event. You will have to pick him/her up the day of the check in (afternoon of the 23<sup>rd</sup> of February) and bring him/her home with you. They will spend the night of 23rd-24th-25th of February 2023 at the student dorm.

You have to make sure they respect the dorm's rules and don't let any other people beside themselves inside the dorm. A security guy will check a list of allowed people during the nights of the event and only let in people who are allowed to, hence in that list.

If you live in Kolping, Marianum or San Benedikt, you are **NOT allowed** to host someone. This decision was not taken from the Snowdays Teams, but from the Administration of the dorms.

- If you live in an apartment, you can host only if you **live in Bozen**. You can host a **maximum of four people** per person; this rule applies to each person in the WG, which means that every person in the same apartment can host up to four people and have to put that number of people individually. You will have to pick him/her up the day of the check in (afternoon of the 23<sup>rd</sup> of February) and bring him/her home with you. They will spend the night of 23rd-24th-25th of February 2023 at your place.
